GROUP, INC.

Free Webinar

Wednesday May 26, 2010 - 11:00 am ET
45 Minute Presentation - 10 minutes Q/A

Presented by
Lori Holmes, Director

How to Deal with Organizational Change When Implementing a Software Measurement Program

Implementing Measurement Programs often requires changes to processes and methods in the software organization. Any change introduced, no matter how big or small, will affect the people in the organization.

This presentation will focus on:

- The dynamics of change (what to expect – i.e. communication issues, resistance, morale issues, productivity impacts)
- Tools to manage the impacts and keep them to a minimum

General concepts related to change and specific examples related to implementing measurement programs will be presented

Agenda

- Dynamics of Change
- How to overcome the dynamics of change
- What changes to expect when implementing a measurement program
- Q/A

Space is limited for this event and will be reserved on a first-come basis.
